

Texas Exotic Hunting for the hunter who wishes to hunt scimitar horned oryx, aoudad & other exotics

## **Texas exotic hunting**

***Texas exotic hunting*** is just one of the exciting hunting adventures we offer at Magnum Guide Service.

*Texas has the largest number of exotics in the United States, and in some cases has more animals than in the countries in which they originally came from. Why go Texas exotic hunting with us? We have guided many record book heads and know what to look for in a trophy. Our hunters have experienced 100% success with us. We offer some of the most affordable hunts for gold medal exotics in our area, as well as package and group discounts.*

*Our Texas exotic hunting is primarily done safari style out of a 4WD vehicle. Your food, lodging, guide and transportation around the ranch are all included in your package. In addition, your mounts can be taken to a reputable taxidermist.*

*If you're interested in [Texas exotic hunting](#), or any of our other hunting or fishing adventures, please contact us.*
